There are a multitude of interesting updates in this revised edition of the classic book about Stephen King's 'hidden' work. It is likely to prove to the definitive book about King's uncollected, unpublished and lost works. Included in the new information are a series of newly discovered unpublished works, for many of which the author was able to secure King's exclusive and definitive statements about how they originated, and why they never saw the light of day. Many of these quotes are entertaining and even controversial. Among previously unknown works are: *Hatchet Head*, *The Ladies Room* and another incomplete 'Western' novel.

King reveals more about: *Asylum*, *The Street Kid's Bible*, *The Accident*, *The Corner*, *On the Island*, *Pinfall* and *The Star Invaders*; the haunted radio station screenplay and his lost radio play. One of these would have been a Richard Bachman original! He also helps clear up many mysteries about titles and stories he is rumoured to have written including that rumoured screenplay of *Poltergeist*.

There are new Chapters with full detail about these newly published but uncollected tales: *American Vampire*, *The Dune*, *Herman Wouk is Still Alive*, *The Little Green God of Agony*, *Mile 81*, *Morality*, *Premium Harmony*, *Throttle* and *Ur*.

New Poems have been added, including *Mostly Old Men*, *The Bone Church* and *Tommy*.

And there are significant revisions to chapters such as *The Reploids*, *The Huffman Story* and *Squad D* based on information exclusively provided by Stephen King; other updated chapters include new information about *I Was A Teenage Grave Robber*; and a full revision of *The Cannibals* following the publication of *Under the Dome*.
